

EDENVALE *Sauvignon Blanc*

To the wine drinker who appreciates the taste and full complexity of premium wine, but is searching for an alcohol removed alternative as a lifestyle choice, Edenvale offers you quality alcohol removed wines at an affordable price.

A dry, fresh, Australian Sauvignon Blanc distinguished by its wonderful fruit flavours and straw/green hue. An alcohol removed sauvignon blanc to celebrate with the whole family. Made from selected South Eastern Australian grapes.

This alcohol removed beverage contains less than 0.5% alcohol by volume, well below the international standard for non-intoxicating, a level similar to that in natural fruit juices. It's therefore half the calories of a standard wine and a good source of Vitamin E & C.

Pale yellow with a slight youthful green hue. Definitive capsicum, ripe gooseberry and green herbaceous fruit aromas. The palate is flavoursome with capsicum, herbaceous and citrus flavours. The wine is not bone dry and the flavours linger on a refreshing acid finish.

Edenvale's Sauvignon Blanc is perfect with fish, sushi, sashimi, smoked salmon or raw barely cooked tomato such as gazpacho, tomato consommé or tomato vinaigrettes with young goats' cheeses marry well with the herbaceous flavours- Salads and other fresh-tasting dishes with lettuces, avocados, tomatoes, green onions. Mexican foods, air-dried hams, simply grilled chicken and even lamb all combine well with this Sauvignon's grassy herbaceous character.
